

Counter Signature Policy Longden Ltd

1 Purpose

The purpose of the Counter signature policy is to ensure that all of Longden assessors and verifiers who are working towards achieving their qualification have their assessment and verification decision checked and counter signed by experienced and qualified assessors and verifiers. This is to ensure consistency and quality of standards within the centre.

The centre's verification policy also ensures that recently qualified assessors and verifiers have a higher proportion of their work checked.

All IV decisions are counter signed for staff working towards V1 qualifications.
